

# Experienced Java Fullstack Developer (f/m/x)

COLMEIA.cloud is working on the forefront of workforce planning. We create real impact for companies and their employees by facilitating organizational transformation and agility.

We work for large, international enterprises and collaborate with Strategy and HR consultants which embed our software suite into their own client projects.

We have a set of ideas in the drawer to serve our client base with new solutions. We therefore seek support for our int. development team based in Lisbon, PT.

If you are interested in growing yourself and have no problem with getting asked about your opinion and ideas, then we'd like to hear from you. Get in touch directly with our MD *Manuel* through [collaborate@colmeia.cloud](mailto:collaborate@colmeia.cloud).

## Your Role

- Agile software development
- Concept / architecture / development of Java Web applications with focus on HR-topics
- Front-end and/or back-end develop., depending on your skills and interests

- High quality standards
- Advanced English skills
- As Senior, you have at least 5 years' work experience in developing Java Web-Applications

## Nice to have

- Apache Wicket
- Experience in working with Neo4j / Cypher
- HTML5 / CSS3 / SASS / JQuery / Bootstrap
- Experience with clean code
- Ubuntu Linux (for the servers)
- German language skills

## Our Technology Stack

- Java 14 / Typescript
- Spring / Hibernate
- PostgreSQL / Neo4j
- ReactJS / HTML / CSS3 / SASS / Bootstrap / Webpack
- Agile / SCRUM
- Ubuntu Linux LTS
- Eclipse / Visual Studio Code

## Perks

- Private health insurance
- Permanent employment contract
- Centrally located, modern working place with a positive atmosphere
- Continuous training

The onboarding phase of 1-3 months will take place in our HQ in Munich. You will get to know the team and familiarize yourself with our pipeline and processes. Afterwards you'll work as part of our Lisbon team and closely collaborate with the HQ in a distributed, agile environment. As long as the public health situation restricts travel or poses any risk, we will organize the onboarding virtually and get to meet in person later on.

See more about our work on our website [www.colmeia.cloud](http://www.colmeia.cloud).  
Please send your CV or any question to [collaborate@colmeia.cloud](mailto:collaborate@colmeia.cloud).
